Who Have I Been?

**"Coming Out
of the Dark"
Workshop**

**October 7th-9th
2016**

**Somewhere within
our darkest
depths**

**A small voice
cries...**

Go Deeper into understanding how our Inner Child is created, the problems associated with it and how it rules our present life.

Between the ages of 0-20 we are only able to react emotionally as cognitive thought has not yet fully developed.

As a result, perceived and real hurts cause parts of the psyche to stop growing. Later in life when similar situations trigger the same emotional response, the fearful child continues to be re-ignited, trapping us in endless cycles of sabotage & victimization alienated from our Inner Power

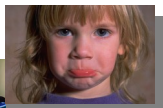

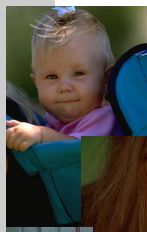

Within a safe nurturing environment we will discover greater truth from.

- ♦ **Inner Infant**
- ♦ **Inner Toddler**
- ♦ **Inner School Child**
- ♦ **Inner Teenager**

The result of this exploration will restore your true Self enabling a stronger more vibrant psyche. So.....

You can create the life you deserve!

This life changing event will also give you the tools to help your own children create a life of power!

"Our perceptions create our reality. These perceptions of who we are, what we deserve and ultimately what we become are only illusions placed on us as children. In the Quantum field all possibilities are available to you."

Rosemary McCallum

What keeps us from being and expressing lovingness and creativity is layers and layers of unhealed pain.

The Divine Child

"Creativity is the glory of being human and our human destiny is to create our own unique lifestyle, to do this we need the spontaneity, resilience and curiosity of the Divine Child."
