Fate and Destiny

The Two Agreements in Life

FATE is Shadow
It contains the secret power of
you, your Karma and your
purpose

FATE gives you everything you
need to accomplish the task

DESTINY is Light
It emanates your attributes out
of you as you expand your
vibration

Destiny is accomplished or not
through choice

FATE

Your Soul agreement is your sacred treaty with your Higher Self to achieve the next level of awareness on your spiritual journey of enlightenment.

We carefully map out where we will be born and on what date. Our birthdate and birth numbers are very significant especially in numerology with our life Soul contract. Our personalised life Soul contract includes our unseen companions, our parents and family, friends and those who come into our life for long and short periods of time.

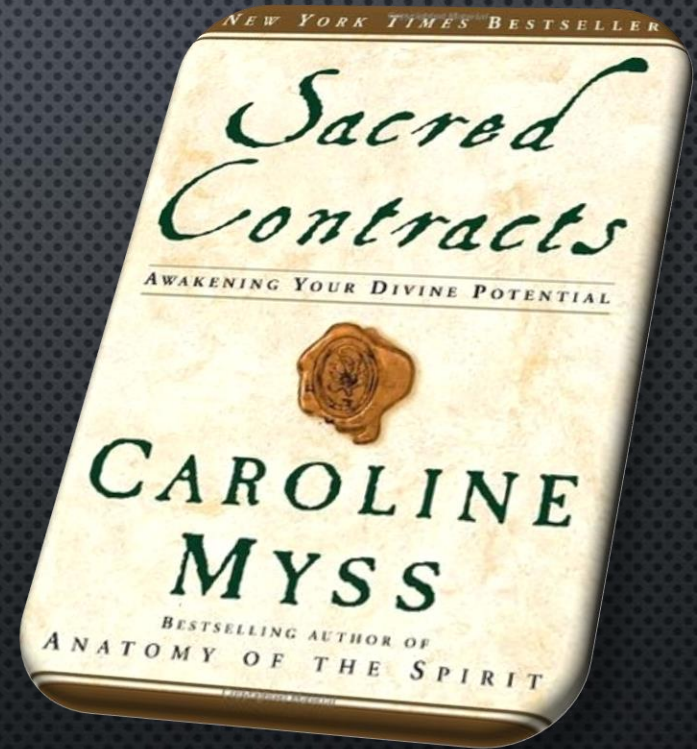

Your Soul Contract themes include other Souls, but they are also commitments you made to yourself in this lifetime to grow and raise your consciousness about your unique energy.

*From The Modern Heroine's Journey of Consciousness by Molly McCord
Book Two in The Awakening Consciousness Book Series*

The Archetypes you have in each of your Houses are also part of your Soul Agreement

Myss explains how you can identify your particular spiritual energies, or archetypes—the gatekeepers of your higher purpose—and use them to help you find out what you are here on earth to learn and whom you are meant to meet. Exploring your Sacred Contract will shine a light on the purpose and meaning of your life. You are meant to do certain tasks, you are meant to have certain relationships.

FATE is your soul agreement. Your guideline to follow as you evaluate and excavate the landscape of the various levels of consciousness.

With the gift of free will you are continuously making choices of what to think, feel, say and do.

Each choice has karmic consequences, which will impact your journey ahead.

DESTINY

We are called to Evolve or Repeat during this Life Cycle.

If we constantly choose to repeat we cannot expand our Life Force and start to use our prana to resist the push to grow out of our consequences

This act of not listening causes the Karmic Wheel to repeat itself either outwardly People, places times and events –or inwardly through Dis-ease

Despite what our fears may tell us we have one purpose and one purpose only. That is to achieve our path.

Our path is not some imaginary destination, it is the evolvment of our consciousness

This process is an inescapable part of human evolution. It is the quest to find our true identity – our Soul driven self that is not dictated by the world that we live in.

Appropriately, the place to start is by taking a fresh look at the major characters that are pivotal to awakening us to evolved states of consciousness

SOUL

Is the repository of all our creative journeys containing every experience of each of our lifetimes. It is feminine in function – meaning it contains and receives. Our Soul decided and chose our Fate. Knowing your Soul is achieved through Mystical introspection and experience.

One has to go within deeply – if you don't you won't be guided from within your life will be directed from without.

SPIRIT

Is the animating energy that manifests in all of creation. It is the force that connects with intention in the creation of all life.

The Soul is the energy – the spirit draws from that energy and energetically creates from the Soul's intentional focus

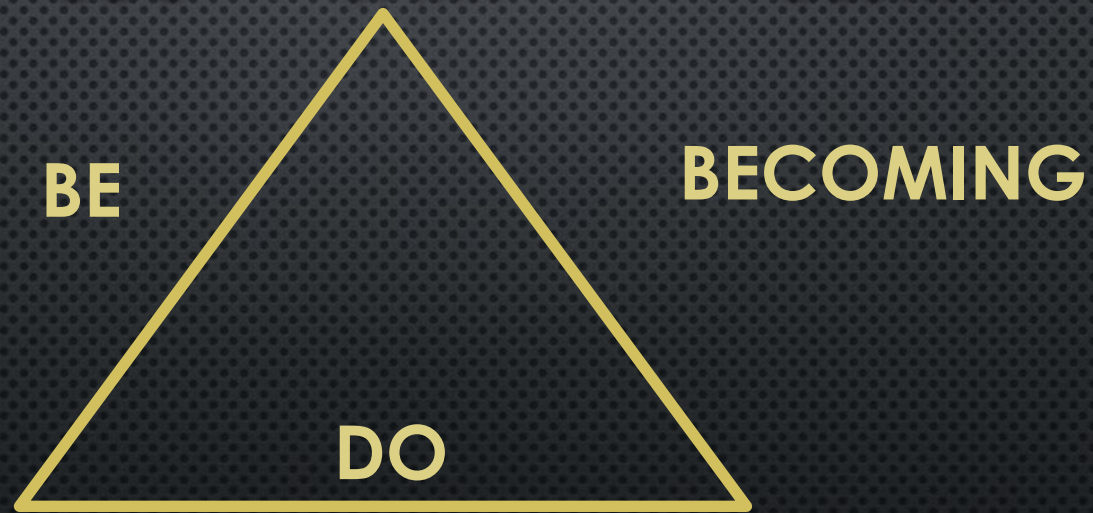

Soul is Oxygen to the Spirit's Fire

SOUL EGO SPIRIT DESTINY

Ego is the sense of I Amness

Fulfilling our destiny involves consciously developing a connection to our deepest inner selves and maturing on an emotional, mental, and spiritual level. This cannot happen without the Ego

A composite image featuring a person's hands holding a glowing sun in a cosmic space with planets. The hands are positioned as if cradling the sun, which is the central focus. The background is a dark, starry space with several planets of different colors and sizes, including a prominent red planet in the lower right and a blue planet in the upper right. The overall tone is spiritual and cosmic.

Ego – the Sun of God

And Like the Sun it travels the Overworld
and the Underworld.

We search for ourselves by healing to restore balance, at which time we will reach Zero Point - the merging of our matter and antimatter selves.

The TRUE MEANING OF EGO

The Etymology (meaning) of the word Ego was found in 1714, as a term in metaphysics, "the self; that which feels, acts, or thinks," from Latin ego "I".

The word Ego means true self which was confused in Psychology in the early 1900's to mean "The over inflated self"

YOUR EGO IS A GREAT THING. IT IS IN SEARCH FOR WHAT IS REALLY YOU.

The over inflated self is personas (The Latin word *persona* meant “actor’s mask” or “actor’s role,”) or the personalities (What you think of yourself) that you play out in order to find your true self or Ego once again.

We need both Soul and Ego in full partnership – that's the dance!

Ego thinks; Soul feels.

Whether it be speaking, writing, or business, your art is flat if it comes only from Ego.

When your Soul is speaking, your expression comes alive and Ego supports you by giving it form.

The SUN represents our 'outer-world', our identity, our personality, our ego.

It represents how we 'shine our light' out into the world, the present moment, our yang or masculine archetype expression. The Sun offers us strength, courage and illuminated insight of the Soul.

The MOON represents our 'inner world', our hidden emotions, desires, our shadow-self, fears/worries and our dreams. It represents our feelings, our unconscious beliefs, the past and our yin or feminine goddess archetype.

The Moon offers us the ability to feel, learn from the past and creatively unlock and express our essence.

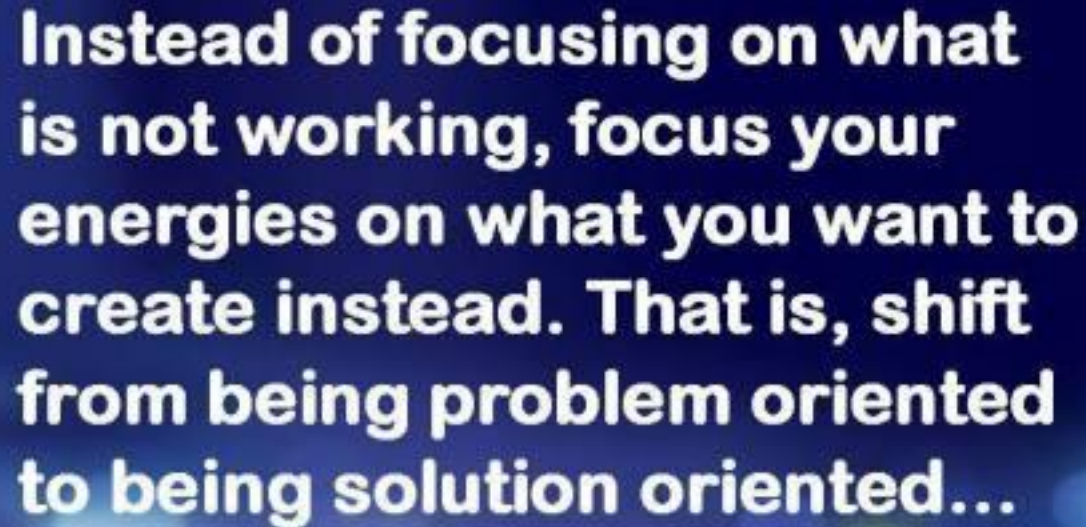

The highest evolution and greatest fulfillment of your Ego comes from following the directives and guidance of the Soul Identity and its Superconscious mind.

**Your Soul has said YES to the
new story of your life, the one
that's starting to unfold now,
the one that feels most alive
and vital!**

Objection!

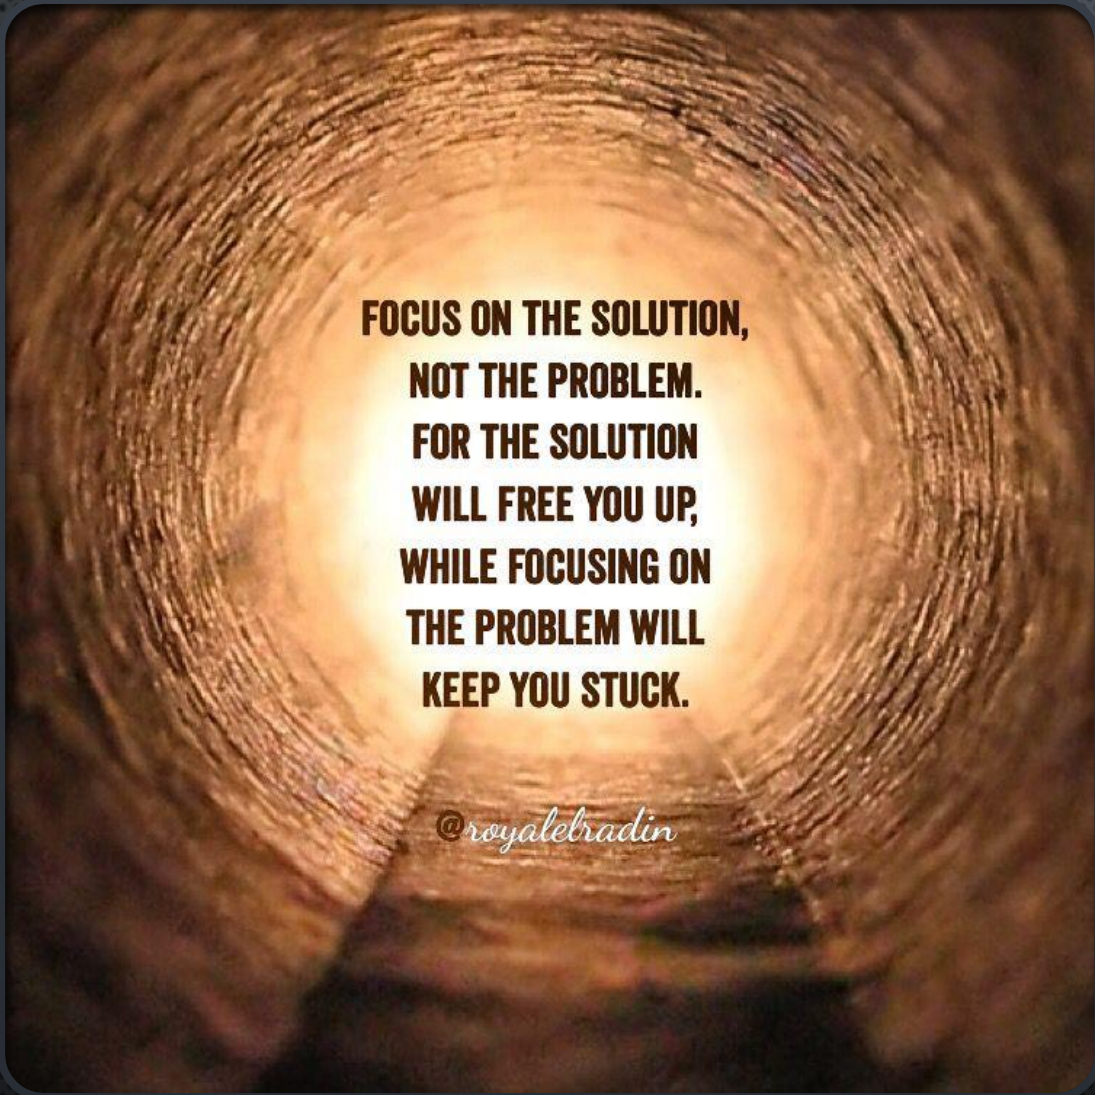

Instead of focusing on what is not working, focus your energies on what you want to create instead. That is, shift from being problem oriented to being solution oriented...

When you focus on a problem, your energy contracts, you go into fear and your creativity dries up.

When you focus on the problem you make pseudo ego the master.
